

# WebTnA - incorrect AKM instance

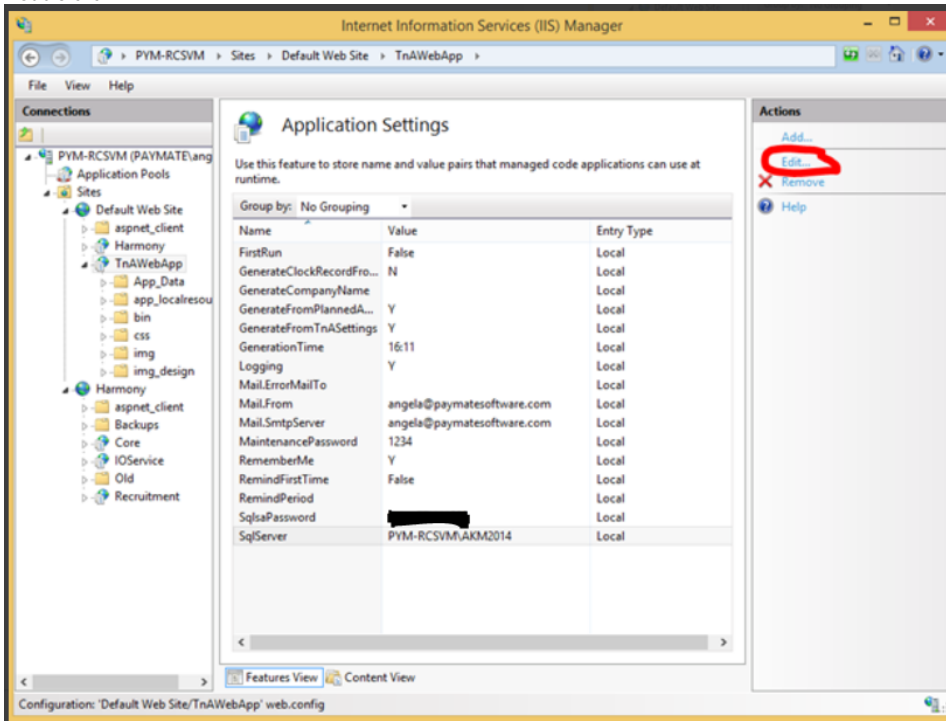

## How to change the AKM instance for TnA error.

Steps:

1. Close the web TnA.
2. Open the IIS services.

3. Double click.

4. Click Edit.

The image shows a standard Windows-style dialog box titled "Edit Application Setting". The title bar is yellow and contains a question mark icon and a red close button with a white "X". The main area of the dialog is light gray. It contains two text input fields. The first field is labeled "Name:" and contains the text "SqlServer". The second field is labeled "Value:" and contains the text "PYM-RCSVM\AKM2014". At the bottom right of the dialog, there are two buttons: "OK" and "Cancel".

Dialog Box: Edit Application Setting

Name: SqlServer

Value: PYM-RCSVM\AKM2014

Buttons: OK, Cancel
